EDUCATION

Georgia Institute of Technology Expected Graduation: May 2026
Bachelor of Science in Computational Media
Relevant Coursework: Computer Architecture, AI & Machine Learning, Algorithms

WORK EXPERIENCE

DeTerminal| Atlanta, GA January 2025 – June 2025
Full-stack Intern

- Designed and developed comprehensive UI/UX component library using Figma, creating landing pages, user dashboards, and brand identity systems to ensure consistent design patterns across web applications
- Built responsive front-end applications using React, TypeScript, and Tailwind CSS, translating Figma prototypes into production-ready components with mobile-first responsive design principles
- Integrated APIs and external services including Twitter API to fetch and display real-time cryptocurrency data, developing custom React components for data visualization within terminal-style interfaces
- Led development of intuitive tabbed navigation system implementing streamlined UI architecture that reduced user task completion time by enabling one-click access to trading tools, market data, and social feeds, reducing user task completion time by 40%

Objects and Design | Georgia Institute of Technology | Atlanta, GA January 2025 – Present
Teaching Assistant

- Addressed students' lecture and homework questions, providing clarification and support to enhance understanding of object-oriented programming concepts
- Guided students in developing full-stack web applications using Django, emphasizing best practices in front-end and back-end integration while teaching MVC architecture principles
- Led office hours sessions on coding best practices and clean code systems, helping students adopt industry-standard development workflows that improved assignment quality scores and decreased debugging time across student projects

CS/Java Tutoring | Georgia State University | Atlanta, GA January 2023 – April 2023
CS Tutor

- Tutored over 50 programming students in Java and computer science fundamentals, breaking down complex concepts into digestible explanations to build solid programming foundations and improve academic performance

PROJECTS

Month.ly| Full-Stack Developer June 2025 – Present

- Developed a full-stack menstrual health tracking application using React Native for cross-platform mobile development, ensuring consistent user experience across iOS and Android devices
- Implemented advanced predictive analytics and machine learning algorithms utilizing Spring Boot's scalable backend infrastructure to deliver accurate menstrual cycle predictions up to 3 months in advance
- Developed a user-centric interface featuring a responsive raccoon mascot character that evolves with cycle phases, leveraging friendly visual storytelling to create emotional connection and normalize menstrual health conversations among users

VIP Graphic Medicine | Team Lead August 2024 – Present

- Developed research-driven web applications for accessible medical information platforms using user-centered design principles, content management systems, and full-stack development methodologies
- Led development team of 5 members converting Figma prototypes to production WordPress sites, implementing custom PHP themes and responsive CSS frameworks for interactive medical content delivery
- Partnered with Shepherd Central to architect scalable web-based platforms, managing API integrations that enhanced medical storytelling accessibility and improved patient engagement

TECHNICAL SKILLS

Programing Languages: Java, Python, C, Html/CSS, JavaScript, C#, Typescript
Frameworks: React, React-Native, NodeJS, Angular, Django, Spring Boot
Design Applications: Figma, Adobe Illustrator, Blender

EXTRACURRICULARS

Georgia Tech Design Club | Georgia Institute of Technology | Atlanta, GA Fall 2023 - Present

- Utilized Figma to create prototypes, refining skills in creating user-friendly interfaces and adhering to best design practices

Host/Server | Seed Kitchen & Bar | Marietta, GA May 2023 – August 2023

- Worked as both a host and server, delivering excelling customer service by greeting guests, managing reservations, and ensuring an enjoyable and efficient dining experience
